# Traffic Safety Bulletin

"Individual commitment to a group effort - that is what makes a team work, a company work, a society work, a civilization work." ~Vince Lombardi

## ICJI ANNOUNCES ELECTRONIC GRANTS MANAGEMENT SYSTEM (E-GRANTS)

ICJI is pleased to announce the launch of a new online application system designed to streamline the grant process. The e-grant system was developed in Pennsylvania in 2004 to reduce grant preparation time, improve data quality, standardize applications and improve efficiency of the review and approval process.

Effective January 1, 2012, agencies interested in applying for grants through ICJI must complete the grant application online.

For most of our traffic safety grantees, you will not have to utilize this system until you begin to prepare your FY 2013 grants. Future training notices and instructions for creating a log-in and password will be

forthcoming along with the web address for the system itself. Updates on the deployment and training on the e-grant system will be provided in the monthly traffic safety newsletter or in emails from your Law Enforcement Liaison. The e-grant system is an end to end solution for the administration of grants. Everything from the grant application, reporting and fiscal draw downs will occur within the e-grant system online.

For more information on e-grants including open funding announcements, please visit our website at: <http://www.in.gov/cji/>. Look for the 'Apply for Funding Online' section on the left of the page.
